Just a few notes about some crossovers and timeline issues.

(1) Jackal's opening scene takes place during Bull's story, but the bulk of the book happens after Zipper's story. (2) The opening of Preacher happens during the last chapter of Torch's story. (3) Dixie Reapers 10 is a small collection of short stories that give you a glimpse into the lives of Ridley and Venom, Ryker and Laken, Zipper and Delphine, and you'll see why Sarge (from Flicker's book) is having trouble with a certain waitress. (4) There's a common story thread from Spider to Saint and into Rocket's book. However, each can be read as a stand-alone. (5) Naughty or Nice is the story of Casper VanHorne (Isabella's dad from the Dixie Reapers - you met him in Venom and Torch). (6) In Ashes, the heroine (Nikki) is Renegade's little sister. (7) Dingin Devil's Fury has been introduced previously - as Jameson. You met him in Havoc. He's Jordan's brother who was a Prospect at the time.
