

Are you new to my books, or just curious about the chronological order of each series? Since my series tend to overlap and have a lot of crossover, the list is a mix of series. Keep in mind, this is the chronological order for all Harley Wylde books. So it's the order in which they happen in the timeline, but not necessarily the order in which they were written.

A FEW NOTES:

- Jackal's opening scene takes place during Bull's book. However, the rest of the book takes place after Zipper's story in the timeline.
- The opening of Preacher happens at the end of Torch.
- Dixie Reapers 10 isn't listed here – it's a collection of short super hot scenes called "Encounters." However, it sets up Sarge's book and you'll see why he has so much trouble with a certain waitress.
- Naughty or Nice is Casper VanHorne's story (Isabella's dad – you met him at the end of Venom's book, Dixie Reapers MC)
- In Ashes, the heroine (Nikki) is Renegade's little sister.
- Dingo in Devil's Fury has been introduced previously as Jameson – he's Jordan's brother (from Havoc, Devil's Boneyard MC).
- Hades Abyss makes an appearance in Torque (Wicked Mayhem MC). – And yes, there will be more Wicked Mayhem coming.
- Grizzly is a peek into his life with May and how they met. It takes place in the 1980's when they're both really young.
